- (4) Resolution Authorizing the Refunding of the Hampton Roads Regional Jail Authority Bonds

A RESOLUTION OF THE COUNCIL OF THE CITY OF NEWPORT NEWS, VIRGINIA, APPROVING THE ISSUANCE OF DEBT BY THE HAMPTON ROADS REGIONAL JAIL AUTHORITY. This resolution approved the issuance of debt by the Hampton Roads Regional Jail Authority (the "Authority"). The City entered into a Service Agreement, dated December 1, 1995, with the cities of Hampton, Norfolk and Portsmouth and the Authority, in connection with the acquisition, construction, equipment and operation of the regional jail facility located in Portsmouth, Virginia. The Authority issued revenue bonds in 1996 to help finance the cost of construction. Member jurisdictions pay a per diem charge and fees associated with the care of their respective prisoners at the Regional Jail. These charges provided the means for the Authority to pay its operational costs, including debt service on its bonds. The Authority's Board of Directors authorized and approved the proposed issuance of its refunding revenue bonds in the aggregate principal amount not to exceed \$15,000,000. The Authority and the City determined it was in the best interest of the Authority to sell the bonds to the Virginia Resources Authority (VRA), which resulted in substantial benefits and savings to the Authority and the City. The Acting City Manager recommended approval.

The property identified as 489 Denbigh Boulevard was the final parcel needed in order to proceed with the design and implementation of the proposed Stoney Run Regional BMP Project. G. Citizen Comments on Matters Germane to the Business of City Council

Ms. Charlotte Saylor, 1011 77th Street, Newport News, addressed City Council about the demolition of the Deep Creek Pier, which was used by the public and the watermen since the mid-1900's. She stated the pier was demolished with no plans to rebuild. Ms. Saylor further stated that she had never seen a legal deed that showed the City of Newport News ever owned the property.

Ms. Charlotte Saylor further addressed members of Council about the property at 1600 25th Street, the former Friends of the Homeless Shelter. She referenced Regular Meeting Minutes of November 27, 2007, which as she understood, indicated that \$10,000 was appropriated to pay the mortgage owed by the Friends of the Homeless organization for the property. The \$10,000 was given to the Newport News Redevelopment and Housing Authority (NNRHA) to obtain the property. During investigation and research, Ms. Saylor obtained a deed of the property which transferred the property from the Friends of the Homeless, Inc. This was a Deed of Gift to the NNRHA. Ms. Saylor pointed out that \$10,000 was not shown on the Deed. As a taxpaying citizen of the City of Newport News, Ms. Saylor inquired about the \$10,000. Ms. Saylor provided copies of her excerpt from the November 27, 2007 Minutes and the Deed of Gift between the Friends of the Homeless and the NNRHA, which are attached and made a part of these minutes. Ms. Saylor reminded that representatives of the Lighthouse for Women came before City Council at its Regular Meeting on August 11, 2009 in an attempt to acquire the property located at 1600 25th Street. Representatives of the Lighthouse for Women met with the Assistant City Manager, Mr. Alan Archer, who provided the group with a list of tasks to be done.

G. Citizen Comments on Matters Germane to the Business of City Council
Continued

Ms. Saylor advised that the Lighthouse for Women had been working on the tasks and had acquired contractors to work on the building. She indicated the organization was stopped, and was told because the zoning had changed, the Lighthouse for Women was no longer eligible to acquire the property. Ms. Saylor stated this property could be used to help the homeless, which was a big need in the City of Newport News. She recalled other organizations that attempted to acquire the former Friends of the Homeless property, but was also denied. She stated the Freedom Outreach Center would have done a great job with the building, as well as Operation Breaking Through. Ms. Saylor inquired about the reasons for denial.

Acting City Manager Morgan responded, regarding the use of City dollars by the NNRHA, the funds were used for maintenance related to the building and cleanup of the structure. Previous reports to City Council indicated there had been two public processes which solicited potential operators of the building as a family-type homeless shelter. Based on briefings and Council decisions in the spring of 2009, the City Manager and the NNRHA was directed to proceed with demolition. The NNRHA was asked to hold off on demolition when the Lighthouse for Women and other groups approached City Council to express an interest in the building. Acting City Manager Morgan stated it was his understanding that the Lighthouse for Women was a group trying to do good things in the community. They did not have their legal documents in order to be a non-profit, nor did they have a business plan to operate a shelter. He verified that the Lighthouse for Women was asked to stop entering the building because the utilities had been cut-off in preparation for demolition.

Mr. Daniel Curran, 10835 Warwick Boulevard, Newport News, represented the 431 Group, an association of area business leaders and citizens concerned about the future of the City. Mr. Curran advised that the 431 Group was concerned with improving the quality of life and attracting new businesses to Newport News. They encouraged Council to keep the City moving in a forward direction; and planned to endorse and help those candidates that intended to do so.

H. New Business and Councilmember Comments

Acting City Manager Neil Morgan presented A RESOLUTION APPROPRIATING FUNDS FROM LEEWARD MARINA FUND BALANCE (\$150,000.00) TO LEEWARD MARINA CONTRACTUAL SERVICES (\$150,000.00). This resolution appropriated \$150,000.00 from the Leeward Marina Fund Balance to Leeward Marina Contractual Services. He stated there was an ongoing dredging project on the outer channel at Leeward Marina. Staff planned to move forward on the dredging of the inner channel. The continuation of dredging activities, which were funded out of the Capital Improvements Plan, allowed the City to save approximately \$50,000 in remobilization costs and \$40,000.00 in costs associated with the disposal of dredged materials. The Leeward Marina, which typically required dredging every seven years, was last dredged in 1996. Acting City Manager Morgan advised the dredging of the Marina would improve watercraft access to 40 slips, now limited in use and 17 slips completely unusable due to shallow water depths. This improved access would increase marina revenue.

She asked Acting City Manager Morgan to look into the matter and provide one final report. Acting City Manager Morgan replied that Council’s previous direction was to proceed with demolition. The Executive Director of the NNRHA was instructed to proceed; and unless Council directed otherwise, demolition of the building would proceed.
