PERMIT FEES (FEES INCLUDE 2.0% STATE SURCHARGE)

Effective July 1, 2009

(a) Building Permit Fees:

1. The minimum fee for any building permit shall be fifty-six dollars and ten cents (\$55.96).
2. For the construction of any building or addition thereto where the floor area is increased and for the installation or erection of any industrialized building unit, the fee shall be based on the floor area to be constructed, as computed from exterior building dimensions at each floor. In the case of buildings of use groups **R3, R4 and R5**, any unenclosed carport, porch, or stoop, when built in conjunction with and at the same time as the dwelling, shall be excluded from the square footage computation. The cost of construction shall be determined by multiplying the total square footage by the appropriate cost per square foot found in Table 13-26. The fee shall be computed as follows:

For use groups **R3, R4 and R5**, the fee shall be determined by multiplying the value of the construction as determined from Table 13-26, by a regional factor of eighty-eight hundredths (0.88), and the product thereof multiplied by a factor of forty-four hundredths (0.44) of one percent (.0044).

For all other use groups, the fee shall be determined by multiplying the value of the construction as determined from Table 13-26, by a regional factor of eighty-eight hundredths (0.88), and the product thereof multiplied by a factor of forty-eight hundredths (0.48) of one percent (.0048).

3. For the alteration or repair of any building or structure, or for the construction or erection of piers, bulkheads, exterior walls or fences, towers, swimming pools or other structures or things, the fee shall be computed as follows:

For use groups **R3, R4 and R5**, the fee shall be determined by multiplying the value of the construction by a factor of forty-four hundredths (0.44) of one percent (.0044).

For all other use groups, the fee shall be determined by multiplying the value of the construction by a factor of forty-eight hundredths (0.48) of one percent (.0048).
