Spring 2011 QuickStart Tennis Events

QuickStart is a tennis instructional program designed for children 10 and under. The tennis equipment and playing surface are scaled down to help kids have fun while developing tennis skills. The racquets, balls and court fit the age of the child. It is a fun way for kids to learn the game without becoming frustrated by having to play on an adult size court with an adult size racket.

It is a great way to build confidence, develop hand/eye coordination and make friends!
