## Denbigh & Menchville Landfill Post-Closure Maintenance Project

### ADDENDUM 2

**BID DUE: April 7, 2009 at 2:00 P.M.**

Contract Officer:

\_\_\_\_\_  
Bill Lindsey, CPPO, C.P.M., Purchasing Administrator, blindsey@nngov.com

1. Contractor is required to haul the general fill material and topsoil from Denbigh Landfill Stockpiles to Menchville Landfill for the project instead of the City hauling the material as stated in the Special Construction Conditions.
2. Contractor is required to visit the site and check out the low areas, which may be much larger than the areas shown on the plan. Contractor's bid for the Low Areas Repair shall reflect the actual field conditions rather than the plans. The plan is for general location only and the contours shown on both sheets, Existing Conditions and General Repairs for Denbigh Landfill are taken from 1996 survey, which is no longer accurate. No change order shall be issued related to the quantity for fill.
3. Contractor is required to re-seed any project areas without grass established in the 12 months period.
4. The City has decided to delete the following from the project: All the repairs on the south side slop adjacent to the Contractor Laydown Area and the water pond including two Repair Bare Areas in the Bid Item #6 and one Erosion Rill Repair in the Bid Item #3.
