Questions, Answers and Clarification:

1. Is the City taking separate bids for the electrical and ceiling work to be done in conjunction with the HVAC? Do we include demolition of the ceiling?

The contractor will be responsible for removing and reinstalling the ceiling as required on the 5th floor for the installation of baffles. The ceiling demolition for the 4th and 6th floors will be by a separate contractor and shall not be included with the HVAC contractor. The HVAC contractor shall include the electrical work required for the HVAC system as indicated on the electrical drawings.
